For additional information you may contact M R Bala (518 542 8678)

Influenza

- Influenza or the flu is a common illness that is spread through a virus and symptoms often include fever, chills, body aches, sore throat, cough, nasal congestion, tiredness, and nausea or vomiting
- It is recommended that adults receive a flu vaccination every year
- Flu vaccinations are covered by most insurances including Medicare and Medicaid with no copay
- It is especially important to be vaccinated if you are high risk for flu complications, such as hospitalization or pneumonia
